TAMDEED PROJECTS L.L.C.

Established in 1996 as a department within Etisalat and under the name "SPECIAL PROJECTS", Tamdeed Projects' main task was to cater for Etisalat's large scale outdoor fibre optic infrastructure cabling projects.

## History and Message

In 2006 Special Projects was changed to TAMDEED PROJECTS and became a stand-alone business unit under the stewardship of Etisalat Services Holding providing high-end turnkey solutions for all aspects of the cabling infrastructure business.

In 2008 and in its pursuit of growth and development, TAMDEED PROJECTS extended its scope of work by grasping the markets of in-building solutions and all their relevant technologies.

Embarking upon its achievements, accomplishments, successful expansion and relentless quest for development and enhancement, TAMDEED PROJECTS' near future goal consists of a quantum leap towards all aspects of ICT market offerings.

With more than AED 600 million of accomplished projects and more than AED 300 million of ongoing projects today, TAMDEED PROJECTS stands as the leader in the United Arab Emirates for outdoor fibre network solutions and is a key player and integrator for indoor structured networks and in-building solutions.

Relying on its expertise, visionary management and investment in time, money and resources, TAMDEED PROJECTS is determined to become the UAE and GCC leader, preferred company and reliable partner for delivering end-to-end ICT turnkey solutions.

## Our Vision, Mission and Values

### Vision

To become leaders in the UAE and GCC in all aspects of ICT offerings

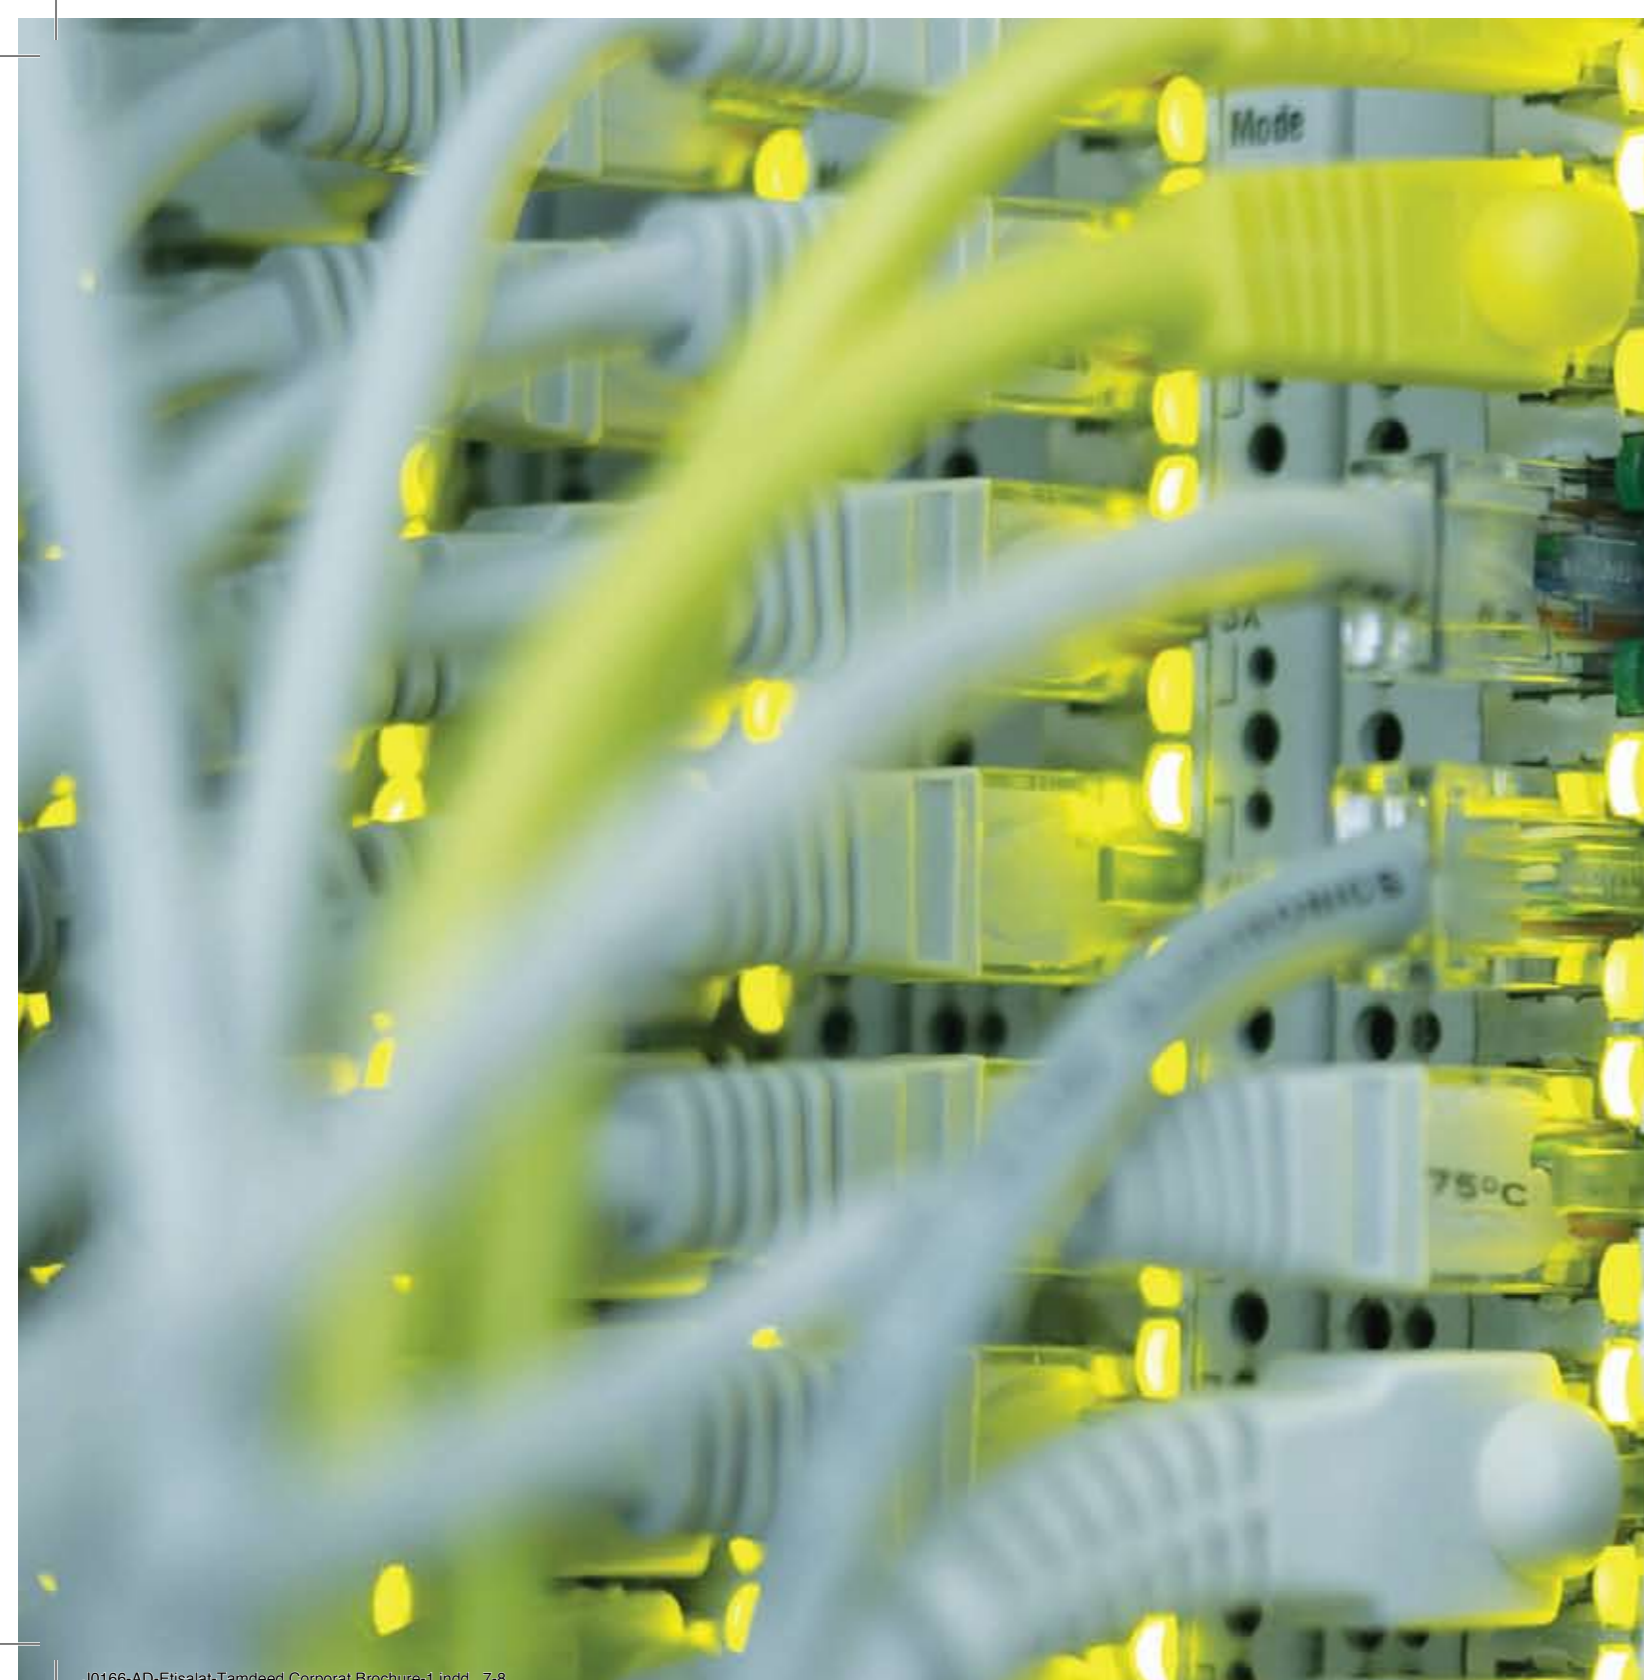

### Mission

Providing:

- Innovative solutions
- Services that exceed customer expectations
- World-class quality and standards
- Outstanding customer satisfaction

### Values

- Reliability
- Excellence
- Commitment
- Flexibility
- Cost-effectiveness
- Transparency

# Outdoor Cabling Infrastructure

With more than 14 years experience in offering turnkey solutions for large scale outdoor fibre optic networks, TAMDEED PROJECTS established itself as the national leader in this field.

**With:**

- Unique knowledge of UAE soil
- More than 7000 KM of laid fibre cable
- More than 60,000 joints completed
- More than 100,000 terminations

TAMDEED PROJECTS is your smart partner for any outdoor fibre project endeavour

**Outside-Plant Portfolio (OSP)**

- Consultancy
- Surveying
- Planning
- Designing
- Route selection
- Civil work (digging trenches, excavating, manhole construction, etc...)
- Cable work (pulling, laying, splicing, etc...)
- Termination, testing, labeling and commissioning
- Complete material provisioning
- Project management
- Network maintenance
- Fault finding and troubleshooting
- Support contract

# Indoor Cabling Infrastructure

From small companies to large enterprises, and from government to state entities, all information traffic relies on a data network infrastructure which is the vital pillar and platform that ensures availability, reliability and security for the overall IT strategy.

Tamdeed Projects' reputation, capabilities and professionalism in this field led to it being appointed main contractor for the implementation of the GPON project launched in the United Arab Emirates in 2007.

With:

- More than 5,000 KM of fibre pulled
- More than 1,000 KM of copper cable pulled
- More than 70,000 RJ45 terminations
- More than 120,000 fibre optic terminations
- More than 50,000 ODF installed

TAMDEED PROJECTS is among the leading companies in the indoor cabling field.

## Inside-Plant Portfolio (ISP)

- Consultancy
- Surveying
- Planning
- Designing
- Civil work
- Cable work
- Termination, testing, labeling and commissioning
- Complete material provisioning
- Project management
- Network maintenance
- Fault finding and troubleshooting

## Workforce

Human capital is the essence of TAMDEED PROJECTS' growth, development and success and one of its main investment areas.

With:

- Visionary head management
- Six project managers
- More than 40 engineers
- More than 320 technicians

TAMDEED PROJECTS has the required experienced workforce and resources that enables it to cater in-house to all scales and numbers of projects in the UAE and abroad.
